

Project Timeline Title

Step 1: Replace these dates with your own

First, change the milestone and interval dates.

Right-click the red milestones and yellow interval to configure dates for your project's first and last milestones and interval.

Note Don't be alarmed if things jump around or disappear. The next step will fix them.

Next, change the overall timeline dates.

Right-click the blue timeline to configure the start and end dates for your project.

Finally, delete this text.

Click this text, and then press the Delete key.
